

Edexcel International GCSE grade boundaries, June 2025

Subject level, standard papers unless stated, from Pearson's June 2025 International GCSE grade boundaries document. Boundaries are the minimum mark for the grade. The R rows are the regional papers (different questions, same standard). 'Mock' is for your own marks.

Using it with a mock

- [] Mark with the real mark scheme, strictly; add both papers to the subject total
- [] Read the total against the June 2025 row for the same tier and papers, allowing five marks either way
- [] Within five of a boundary: on the line. Ten above: secure. Ten below: the grade below
- [] Mathematics A: under about 60 of 200 on Higher mocks in spring means Foundation is safer (a 5 is the top grade there)
- [] Boundaries are set after each exam so the standard stays constant; they move a few marks a series, lower in November and January
